

A bright idea:
the right amount of light
when and where it's needed.

Canopy™

IOS™

01S0564

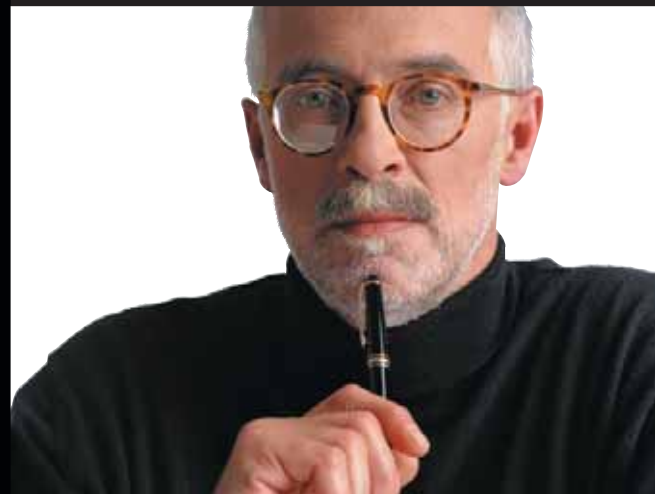

Sure, overhead ambient light may be perfectly fine for large areas. But in a world of aging eyeballs where the number one complaint of workstation workers is poor lighting, more light isn't necessarily better light. Individual task lighting augments ambient lighting and lets users control the light level for task-specific needs — computing, reading, and writing. Less eye-strain, lower costs.

Let Details lighting insights help illuminate the way... as important to workstation comfort and office safety as the right chair and keyboard support.

Pisa™

01S0567

A desk lamp with a silver adjustable arm and a black base. The lamp head is rectangular with a white diffuser.

Chester™

01S0565

A desk lamp with a silver adjustable arm and a white dome-shaped lamp head. The base is a simple circular disc.

Lyra®

01S0566

A desk lamp with a silver adjustable arm and a long, rectangular lamp head. The base is a simple circular disc.

Paloma™

01S0568

A desk lamp with a silver adjustable arm and a rectangular lamp head. The base is a simple circular disc.

Research brings to light...

“Office workers feel better and perform more effectively in a properly lit environment.”

1999, Steelcase Workplace Index conducted by Bruskin/Goldring Research

“The best solution for ensuring worker comfort and health is to lower ambient lighting for computer work while providing adequate light for reading and writing. Proper use of task lighting puts light where it is needed.”

2000, Barbara J. Terry, Certified Industrial Hygienist

“Lighting-induced eyestrain is a leading cause of physical stress.”

1998, Kensington Technology Group Survey

"I never quite imagined it would come to this."

Something Thomas Edison might have said if he'd seen Details task lights.

Canopy™...

Distinctive Form and Function

01S0563

- Energy efficient T5 lamp and electronic ballast
- Electronic dimming control
- Tool free work-surface or panel mount
- Broad distribution of light

Chester™...

Energy Saving Versatility

01S0571

- Energy efficient electronic ballast and compact fluorescent lamp
- Available with a single arm (two moveable joints) or double arm (three moveable joints) which allows easy adjustment
- Panel mounted or freestanding

IOS™...

Contemporary Look with Optimum Flexibility

01S0570

- Energy efficient fluorescent lamp
- Magnetic ballast
- Wide range of motion through ball-and-socket joints
- panel mounted or freestanding

Lyra®...

Tasteful Tradition

01S0572

- Energy efficient compact fluorescent lamp
- Magnetic ballast
- Available with opaque or translucent shade
- 3 joints of movement
- Panel mounted or freestanding

Paloma™...

Lateral Flexibility

01S0574

- Energy efficient compact fluorescent lamp
- Magnetic ballast
- Sleek horizontal movement
- Panel mounted

Elsa™...

Space Saving Style

01S0575

- Energy efficient compact fluorescent lamp
- Magnetic ballast
- Single arm design ideal for smaller spaces
- Panel mounted or freestanding

Pisa™...

Colorful Classic

01S0573

- Incandescent lamp
- Tilts 20 degrees in any direction
- Freestanding

For a better day at work.™
